Beyond the
Buzz

Hot New Technologies and
How We Can Use Them

Date: Friday, Oct. 6, 2006

Time: 8:30 am-4:30 pm

Amlyin Pharmaceuticals

Beyond the Buzz

Every week, there seems to be some new technology that's all the buzz, and you'll fall behind if you don't drop everything and start using it. But deciding where to invest your time and money means selecting the right "next big things" that will have immediate (or at least foreseeable) applications to your work.

Attend this full-day professional development seminar to learn about these new technologies, and how you can put them to work.

Once again, Amylin Pharmaceuticals will host our seminar in the comfort of their corporate conference center. Plan to spend the day learning from your colleagues about :
